

"Sense"ational Handwriting!

6 week class to prepare your child to write! Open to children ages 4-7

Prepare your child to write the right way! This 6-week class taught by an Occupational Therapy Assistant will use the ez-Write Program and a multi-sensory approach to make the basics of handwriting fun, active and engaging. Weekly home-activities will be given to carryover what your child learns each week. Your child will come away with new skills and tools to use at home and in the classroom. A Small class size will allow for individualized attention to your child's needs and abilities.
