

DEVELOPMENTAL PLAY CAMP

Focused on building independence & life skills through play!

6 weeks :: Thursdays 9:00am - 12:00pm :: June 20th - Aug 1st

This three-hour developmental play camp will be an opportunity for our friends to socialize, grow and play! Our friends will go on a new, fun adventure each week. They will be actively engaged in structured play that will promote development on many levels, including verbal skills, life skills, handwriting skills, and physical skills. Instructors will use sensory integration along with gross motor and fine motor play to encourage independence and confidence! The camp will be led and programmed by our very own adaptive programming specialist and will also include a 45 minutes social skills group led by a licensed speech language pathologist.
